General Sherman on War Claims.

WASHINGTON, March 12, 1866.

Many petitions have been presented to Congress during this session for reimbursements of damages done by our army in marching through South Carolina. Most of them were from Columbia, and the parties claim to have always been Union men, and generally assume that the city was burned by General Sherman's order. One of those was presented in the Senate to-day. The petitioner says that he is ninety-three years old; that his home and all its contents were burned on the night after our occupation of Columbia; that the loss was at least $10,000; that he is reduced to beggary, and that he is living on the charity of the Masonic Order. He further says that he was five years Postmaster and twenty-eight years magistrate of Columbia; has been under oath since 1823 to preserve, protect and defend the Constitution, and has never broken that oath; that he suffered pecuniary loss in nullification times because he was a Union man, and was removed from the Post Office for the same cause. This person has laid his case before General Sherman, and the following letter in reply passed through here to-day, on its way to him:

HEADQUARTERS, ST. LOUIS, (Mo.,)
March 5, 1866.

Benjamin Rawls, Columbia, (S. C.)—Dear Sir: I have your letter inclosing a petition to the Congress of the United States, asking to be indemnified for the loss by fire of your house and contents at the time of our occupation in February, 1865. I assure you that I feel deeply for you and all others who lost their property in that fire, but if the United States were to assume the liability it would be an admission that we had done wrong. This is not true. The rightful authority of the national Government had been resisted in the State of South Carolina for years, and we were compelled at great cost of life and money to conduct thither a vast army, and our progress was resisted by all the force the State could obtain. Your own citizens resisted our approach, not only with arms, but by burning the bridges over the Edisto, Congaree, Saluda and Broad rivers. They burned the depot in Columbia before we entered the city, because it contained corn and stores they supposed we needed, and set fire to thousands of bales of cotton rolled into the streets, and which were burning before we entered Columbia. I myself was in the city as early as noon, and saw those fires, and knew that efforts were made to extinguish them; but a high and strong wind kept them alive. I gave no orders for the burning of your city, but on the contrary, the reverse, and I believe it resulted from the great imprudence of cutting the cotton bales, whereby the contents were spread by the wind, so that it became an impossibility to arrest the fire. I saw in your Columbia newspapers the printed order of Gen. Wade Hampton, that on the approach of the Yankee army all the cotton should thus be burned, and from what I saw myself have no hesitation in saying that he was the cause of the destruction of your property. Your true remedy is against him and such others of your citizens as conspired with him and made the military occupation of your city an absolute necessity. I hardly think it is fair that Congress should tax the people of Ohio, Illinois and Missouri to pay for such losses, but as it is not my province to judge in such matters I will send your petition according to your address.

I again assure you of my personal sympathy, by reason of your age and infirmity, but this must not lead me to indorse a wrong principle.

I am, with great respect, your obedient servant,
W. T. SHERMAN,
Major-General.

This letter, it will be observed, is most important in two particulars—viz: first, as giving General Sherman's views on the payment of Southern war claims of even the most worthy character, and second, as furnishing for the first time General Sherman's explanation of the burning of Columbia, which, as is well known, all South Carolinians charge was his order.

Internal Revenue Returns.

ORDER FROM THE COMMISSIONER CONCERNING THE REQUIREMENT OF RETURNS IN LEGAL TENDER CURRENCY AS PRESCRIBED BY THE ACT OF MARCH 10, 1866.

The following has been handed us for publication by Assessor Frazar, and is directed to the attention of all concerned:

TREASURY DEP'T, OFFICE OF INTERNAL REVENUE,
WASHINGTON, March 10, 1866.

The attention of Assessors, Assistant Assessors, and of all other Internal Revenue Officers, is called to the Act to declare the meaning of certain parts of the Internal Revenue Act, approved June thirty, eighteen hundred and sixty four, and for other purposes," approved March 10, 1866.

Copies of this Act will be furnished from this office immediately.

The third section of this Act requires all persons making returns to declare in such returns whether the rates and amounts therein contained are stated according to their values in legal-tender currency.

If the rates and amounts are stated in coined money, the Assessor receiving the returns must reduce them to their equivalents in currency at the time when and the place where the returns are receivable.

The Affidavits annexed to the various blank forms prescribed by the Commissioner, on which tax payers are to make returns, will be amended so as to contain the declaration prescribed by the Act of March 10, 1866, and until such amended forms are received, Assessors and Assistant Assessors will see that the present forms are so altered that the returns shall conform to the law.

CANADIAN RECIPROCITY.—The Reciprocity Treaty with our Canadian neighbors, expired some weeks ago. The Victoria papers are endeavoring to show that it would promote the interests of the people of the United States to renew this treaty. Under the system of valuing imports and exports differently, as the Canadian journals have done, perhaps the figures can be made to show that the trade while it existed, favored us. But the Buffalo Board of Trade has exposed the deception in the figures thus prepared, by exhibiting the widely different basis upon which the *valuation* of the exports of Canada and of our own country have been made. It says:

Thus, coal imported for the provinces is entered at an average per ton of $2 68; exported to the provinces it is estimated at $5 35. Dried fish, imported, is rated at $2 00 per 100 pounds, exported at $4 60. Meats, imported, are rated at $4 07 per 100 pounds; exported $6 72. Flour, imported, $2 60 per barrel; exported, $5 62. "Our coal," remarks the truthful writer, "is estimated at twice the price of theirs; our fish at sixty per cent. higher than theirs." The grades of Canadian flour sent into our market are generally their best grades, usually competing with our best grades for white wheat flour, while that we send to Canada is of our poorer grades. Yet our poor flour stands upon record at forty-five per cent. higher value than their best grades. Here is another illustration: We import from Nova Scotia 100 pounds dry fish free of duty; they are entered at our custom house in Portland at $2 00; we send the same bundle of fish on to Montreal, which they enter there free of duty at $4 60; we have only transferred the same bundle of fish, and give the balance of trade in our favor of 60 per cent. of the original amount that the same bundle of fish was entered for at our custom house in Portland, when perhaps that was all that we had to do with it.

By this sort of fiscal legerdemain, says the New York *Times*, the weak points in much of our reciprocal trade, so called, are dexterously concealed from view. Our exports assume a false magnitude as compared with our imports. The adoption of the same values in both cases would overthrow many pretences that the "balance of trade" is in our favor, and would demonstrate the insignificance of whatever advantages accrue to us from the treaty, as treated with those which we have for ten years conferred upon the provinces.

COPPERHEADS DISGUSTED.—Even the Copperheads are disgusted with the double dealing of the President in issuing his "peace proclamation when the fruits of peace do not follow it." The Marysville (Cal.) *Express* says:

If this is not a declaration that "peace reigns throughout the Southern States, and that as a consequence military tribunals are to be abolished and the writ of *habeas corpus* restored, why then it must be that the Executive has been playing the politician in the shape of a Presidential proclamation, as a political trick to be ... with the ... according to the success or failure it has met with before the public. We are not prepared to believe this of the President, and hence we will await future developments before ... further upon this subject. In the meantime it will be well for Democrats to exercise a little judicious caution how they put their entire faith upon Executive action, and take it as they ... If their support of the President lead them to give their Democratic votes as ... men. If they get up Clubs for political purposes let them be Democratic Clubs. Nothing the President can now do even ... can crawl upon his belly as the Tribune has ... will imply ... him favor in the eyes of the Radicals, and he must either fight them boldly, using Democratic material against them, with its name blazoned ... or ... sink into utter insignificance ...

DEMOCRACY.—We commend the following to the attention of the *Herald*, as that journal can not find proof that Democrats anywhere have countenanced Jeff Davis:

At the annual supper of the Pennsylvania Democratic Club, held in Chestnut street below Twelfth, on Thursday evening (22d of February), Mr. Wm. B. Reed was called upon for a speech, but stated that instead thereof he would propose a sentiment, and accordingly gave "To our illustrious statesman now incarcerated in Fortress Monroe." This was followed by a proposition from a broker in Third street for three cheers for Jeff. Davis. The cheers were given in a small way, although Mr. Josiah Randall and others loudly protested against the whole thing. There was then a general row, which resulted in some members sending in their resignations.

SAN FRANCISCO AND THE SANDWICH ISLANDS.—The propeller *Ajax*, which has been running between San Francisco and Honolulu, has been drawn off for the reason that sailing packets can carry freight at considerably lower rates than can be afforded by steamers. In eight or nine months the China line of steamers will commence operations, touching at the Sandwich Islands. The pioneer ships *Japan* and *China*, of 5 000 tons each, are expected to leave New York for San Francisco about October 1st. These with the *Colorado* and *Constitution*, which are to be refitted, are to constitute the China line, which will commence operations January 1st, 1867.

Andrew Johnson, when a member of the United States Senate, voted for the expulsion of Jesse D. Bright for disloyalty, though he had never raised his hand against the Union. Now, forsooth says the Cleveland *Leader*, this same Andrew Johnson accuses Congress of inaugurating another rebellion, because it refuses to comply with his request that those very men who have fought in the rebel army shall be permitted to take the seats to which they were elected by men whose hands were reeking with the blood of the defenders of the Union.

COTTON IN THE SANDWICH ISLANDS.—The Honolulu *Commercial Advertiser* of the 5th inst. says:

We were shown yesterday a sample of several hundred pounds of beautiful Sea Island cotton, raised by a native on Kauai, the staple of which for length, fineness and silky feel, would have gladdened the heart of a Liverpool cotton broker. Captain Allen, of the whaleship *Onward*, has brought some fine specimens of the upland variety from Catalina Island, off the coast of Lower California, where there are 600 acres of cotton in cultivation. From the same source also, is a veritable specimen of nankeen cotton, from seed brought from China. This last is one of nature's fast dyes, and won't wash out.

The Copperhead papers all over the country are solemnly warning the people of the intention of Messrs. Sumner and Stevens to assassinate the President. Such charges are very easily made. We all recollect how these same journals only one year ago, more than hinted that Andrew Johnson had procured the assassination of President Lincoln, in order that he might himself obtain the Chief Magistracy. The hint was a dastardly one and could have been uttered only by such wretches as those who now accuse prominent men in Congress of an intent to murder the President. To injure Andrew Johnson, they could then charge him with the highest of crimes—the murder of his predecessor; to injure others and to do him a supposed service, they can now charge those who disagree with his administration, with a purpose to murder *him*. The Copperheads, if not consistent, are *per*-sistent calumniators.

KENTUCKY.—The Louisville *Journal* announces that

On the first Monday (the 7th) of May next, the friends of Andrew Johnson in this State, regardless of all party names or party issues, will assemble in mass convention in this city, and we urge that primary meetings be held in every county in the Commonwealth to appoint suitable delegates to the convention.

And of these delegates, the majority will be returned officers and soldiers from the rebel army. Kentucky can fitly sustain the President's "policy," since she made far heavier sacrifices to break up the Union and the Government than she did to save the country.

A day or two ago a dispatch passed over the wires to Victoria, purporting to be a message from President Johnson to the Governor of Vancouver Island. The probabilities are that the dispatch is a spurious one, as we cannot find that it contains a word about "me" or "my policy." The true proofs of its authenticity are altogether wanting.

The number of appointments which the President controls, including the various Department officials, Postmasters and Internal Revenue officers, is not less than sixty thousand. If, as he says, "he is determined to assert the power which is in his hands," we may look during the next year for a large proportion of these officers to walk out of their places with their heads under their arms.

The Red Bluff *Observer* says that up to the 14th of April there had been shipped from that place for the north since the season opened, 127,765 lbs., or about 64 tons of freight. This is rather a meagre showing for a place which aspires to be regarded as a "base of supplies" for a large mining country.

UNION MEETING AT FOREST GROVE.—There will be a grand rally of Union men at Forest Grove on Monday next. The Union Club of that place will raise a fine liberty pole, and Gov. Gibbs and M. F. Mulkey, Esq., will make speeches.

State Items.

The O. S. N. Company, says the *Mountaineer*, are giving their railroad from the Dalles to Celilo a thorough overhauling, and are nearly through ballasting the track on Main street.

The *Mountaineer*, speaking of the County Hospital at the Dalles, urges the erection of a more commodious building, and thinks that in view of the fact that the Dalles is at the gateway of the State, and that large numbers of unfortunates are left there every year, the town is entitled to some assistance from other parts of the State in the work of building a hospital. It also recommends this subject to the consideration of our next Legislature, and if there be no legal obstacle, suggests the justice of a relief bill to meet the exigency.

The *Sentinel* learns that there has been some heavy robberies in Josephine county. Mr. Crandall, of Waldo, had his safe robbed of about twelve hundred dollars. He was not in the habit of opening his safe every day, and is not certain as to the exact day of the theft. He found the safe locked but the money gone. Mr. Wm. Evans, of Althouse, had his store broken open in his absence, his safe taken out, broken open with a sledge hammer and about two hundred dollars taken out. He had only a few days before taken the remainder of his money to Kerbyville, or it would probably all have been gone. As yet no traces of the burglars can be discovered.

Messrs. S. Messenger, and L. J. C. Duncan, says the *Sentinel*, went into the mountains one day last week, to prospect a quartz ledge. They returned on Wednesday last. Mr. M., informs us that they found the ledge, and gold in it, the only difficulty being the smallness of the ledge. The prospectors are going to prospect it, more thoroughly, and to do this, they will build a small arasta, and grind the rock as they take it out. It will probably pay more than expenses.

A grizzly lately made a descent on a farm at the mouth of Sterling creek, Southern Oregon, and killed a cow and calf. A posse went on the hunt of the bold depredator, says the *Sentinel*, without starting him.

The road from Crescent City to Jacksonville is now open. Several freight teams recently left Jacksonville for the former place.

The unterrified Democracy lately formed a club at Phoenix, Jackson county, but were unable to keep the organization alive, and gave up the effort.

The Pen d'Oreille Route

The *Mountaineer* of yesterday (Friday) contains the subjoined account of the Pen d'Oreille route:

Through the kindness of Mr. Abrams of the firm of Abrams & Hogue, we are enabled to lay before our readers a description of this route, commencing at a point on the river, twenty-five miles below the lake and thence up the lake and river to the Flat Head and Bitter Root rivers, and thence up the Flat Head to the mouth of the Jocko, a distance altogether of over two hundred miles.

Mr. Abrams arrived at the ferry, twenty-five miles below the lake, on the 12th of March, where he was detained until the 20th, waiting for a suitable boat to be built for a trip up the river. Arrived at the Cabinet, a distance of eighty-five miles, over a route of unsurpassed beauty, free from all obstructions. Here the river is forced through a channel of about 150 feet in width with perpendicular rock on either side 100 feet or more in height, for a distance of one hundred yards, which presents a barrier to steamboat navigation during high water, but at the present low stage found no difficulty in making the passage with oars alone. From this point at a distance of six miles, a rapid is met similar to the Cascades of the Columbia. At this point a portage will be necessary of not over two hundred yards, after which, for a distance of thirteen miles, there is no obstruction in any stage of water. At this point a rapid is met with four or five large boulders, which, after a careful examination, it is evident that by removing them this rapid can be easily navigated. From this point the river compares favorably with any stream east of the Cascade mountains for steamboat navigation for a distance of forty five miles when we come to the Falls of Thompson's Prairie, and the upper end of the boat route. Here a portage of less than three-fourths of a mile over an easy grade, without timber becomes necessary.

Then the party came to a river though rapid, susceptible of steamboat navigation for a distance of seventy-five or eighty miles, to the mouth of the Jocko river, through a country a large portion of which is well adapted to cultivation and stock raising.

Mr. A. reports having met Messrs. McFarland, Radin, Marlin and others, on their way to the mines, fifty-five miles this side of Thompson's Prairie. He also met Mr. Snipe with his team and cattle on the Spokane Prairie, who reported having a good trip so far. He had ten head of cattle run off by the Indians, between the White Bluffs and the Spokane river. Mr. Abrams met Mr. F. Hunt and party twelve miles this side of Cow Creek.

[DISPATCHES TO THE OREGONIAN.]

DATES TO APRIL 26.

Seizure of Fenian Arms.

BOSTON, April 26.—The *Journal's* Eastport, Maine, correspondent says: A schooner arrived from Portland, with arms for the Fenians, and the United States Collector had instructions from Washington to seize them if there appeared to be any danger of the Fenians using them. During the following night eight cases were surreptitiously removed from the schooner, whereupon the Collector seized the balance, numbering 122 cases—in all [illegible] stands of Springfield and Enfield pattern, second hand and in [illegible]. They will be held in safe keeping [illegible] arrival [illegible] on the Passamaquoddy.

Cholera in New York.

NEW YORK, April 26.—The Board of Health's Office report this morning shows that there have been 2 new cases admitted to the hospital ship, and two deaths since the last report. A communication from Dr. Swinburne, Health Officer, to the Board of Health states that matters are progressing favorably and that the disease is running mildly. The increased number of the admissions to the hospital ship was occasioned by sudden changes of temperature.

New Revenue Law.

CHICAGO, April 26.—The bill to amend the internal revenue law reported to the House yesterday reduces taxation to the extent of $41,000,000 per annum, and provides for the following taxes: Five cents per pound on cotton, with drawback on cotton goods exported; five per cent tax on [illegible] in excess of $1,000. There is no change in the tax on distilled spirits. The tax on crude petroleum is taken off, but kerosene oil is taxed ten cents per gallon. Apothecaries, confectioners and keepers of eating houses, hotels or taverns pay no tax. The only change in the tobacco tax is to reduce the tax on smoking tobacco from [illegible] to 25 cents per pound. Schedule "A" is stricken out except as to billiard tables and carriages valued above $300. The tax on Express Companies is increased from 3 to 6 per cent on the gross receipts. Sales made by brokers whether made for the benefit of others or on their own account shall pay a tax at the rate of five per cent for every one hundred dollars on contracts for stocks, bonds, foreign gold, silver bullion, coin, uncurrent money, etc., twenty cents on every $100 of amount of such sales of securities. Savings banks are exempt from taxation on deposits invested in U. S. securities and such other deposits less than 500 dollars, as are made in the the name of any person. The stamp duties on weights and measures returns are abolished. Nearly every kind of agricultural implements, photographs, engravings sold less than ten cents or used for books and photographs so small that stamps cannot be affixed thereto are exempt.

Gold Medal to Mrs. Lincoln.

CHICAGO, April 26.—M. A. Albert being prevented by the infirmities of age from visiting Chicago as embassador from the French people to Mrs. Lincoln, for the purpose of transmitting the gold medal in commemoration of President Lincoln, it has been decided to forward the same to the Secretary of State through the American Minister at Paris.

The Nitro-Glycerine Oil Case.

CHICAGO, April 26.—In the case of Otto Burstenbinder, before Commissioner Betts of New York, on Monday, Joseph Prentice of the Blasting Oil Company testified that the oil had been shipped from Europe to the accused on several occasions, and once to the Association; that the oil in the city, when the shipment was made to California belonged to Burstenbinder, who had requested the Association to take it off his hands he being about to visit Lake Superior; that he left the city in the latter part of February, returning on the first of April leaving his oil meanwhile in the magazine of the company.

W. H. Mills, who left for California in the middle of February, was interested in a mining company for which he went out. It was previously learned that he should try this oil in three or four weeks. After Mills left, about 100 lbs were shipped to him. He further says, I understood that any of us had authority to sell the oil, and that Burstenbinder wanted to get rid of it. I think the oil was packed by Deveau. I have no particular branch of the business in connection with the oil. Raymond took it to the express office to send overland but the box was too heavy, or charges too heavy, and at their request I took it to the steamer. I got to the dock about 4 o'clock on Saturday P. M. The porter told me it was too late and I hunted a man who seemed to have charge, and got permission to leave it on the following Wednesday. I got a receipt in Burstenbinder's name, the oil having been sold on his account. I don't know how it was packed, whether in glass or tin packages. I don't remember how it was marked. I handed the receipt to Deveau in our office. Raymond was formerly in partnership with Deveau, and has now gone to Nevada to develop some mines there. About the 1st of March a lot was sold to E. O. Taylor, who wanted it packed so as not to weigh over 100 lbs., so that he could take it in the cabin with him as baggage. I suppose the package contained twenty-five pounds of oil, with a good deal of saw dust. This package I think James Deveau sold. That to Taylor I supposed was going on the steamer if we got it down in time. The company then had but three or four pounds; the rest was Burstenbinder's. I know of no directions from the Colonel as to the packing of the oil. Our office is Burstenbinder's head quarters. The oil was sold to Mills several days after Burstenbinder left the city. I had no written authority to sell, but believed it was understood around that Mills was to have some to try. Mills got it at $1 75 per lb; the established price has been $2 10 per box. The magazine had no marks, but some numbers. I know the quantity from what Burstenbinder told me. All the cases I examined contained glass carboys, one of them containing four carboys packed very nicely in saw dust. Raymond left in the steamer *Arizona*, and I presume is in San Francisco.

Treaty with Japan.

WASHINGTON, April 26.—The President has proclaimed a new treaty with Japan for the reduction of import duties. The following articles used in the preparation and packing of teas shall be duty free: sheet lead, solder, matting, rattan, oil for painting, indigo, gypsum, frying pans and baskets. The following articles bear a duty of 5 per cent: machines, machinery, drugs and medicines. The prohibition on opium remains in full force. Iron in pigs or bars, sheet iron, and tin wares, tin plates, white sugar in loaves or crushed, glass and glass ware, clocks, watches and watch chains, wines and malt or spirituous liquors also bear duty of 5 per cent. The citizens of the United States, importing or exporting goods shall always pay the duty prescribed whether the goods are intended for their own use or not.

The Revenue—Colorado.

WASHINGTON, April 26.—The Treasury Department estimates that the national incomes this year will be $500,000,000, and the balance now at the command of the Secretary is believed to be $100,000,000.

The admission of Colorado as a State is now considered certain.

Tennessee Matters.

WASHINGTON, April 26.—The State Senate passed the franchise bill, and afterwards defeated the universal suffrage bill.

The committee on elections reported against admitting C. Johnson and A. G. Garnett to seats, the former, on account of being disfranchised for treason, and the latter for non-eligibility.

Congressional.

WASHINGTON, April 26.—The Senate on Monday, the 23d, passed a bill concerning lands granted to the State of Nevada, which confirms the donation for educational purposes of the 500,000 acres granted for internal improvements. The bill grants land equal to 72 entire sections for the establishment of a university, and makes provision for a college for teaching the theory and practice of mining. It creates the officer of the Surveyor General of Nevada, with a salary of $3,000, and directs that in surveys of public lands, lines may be revised to suit the circumstances of the country, but all lands valuable for mines, shall be reserved from sale and until the State of Nevada shall have received her full quota of lands, the public lands in that State, shall not be subject to entry or sale, except under the homestead law, but shall be reserved exclusively for entry and sale by said State.

The Senate has passed the House bill which provides that the Navy Pay Department shall consist of eighty Paymasters, and forty Past Assistant Paymasters. On Monday the Senate had a very lengthy debate on the power of the President to fill vacancies which may exist on the adjournment of Congress caused by the failure of the Senate to confirm appointees. During the debate, Trumbull, of Ill., incidentally spoke of a nine months' session. Hendricks asked if he had got to stay there nine months? Trumbull said he was speaking of an hypothetic case; but Congress had sat nine months and might again.

WASHINGTON, April 26.—The House passed the Senate bill providing for a sub marine telegraph between the United States and Cuba. Also a bill explaining the jurisdiction of the Court of Claims over Quartermasters' and Paymasters' accounts. The House then took up the Northern Pacific Railroad bill.

WASHINGTON, April 26.—In the Senate Sumner, of Massachusetts, presented a petition for the expulsion of Garrett Davis, of Kentucky, for having said in debate that should the Civil Rights bill become a law, he should be compelled to regard himself as an enemy of the Government. Davis said the language attributed to him was correct, but it ought to have been taken with the context. Otherwise it was a garbled statement. The petition was referred to the Judiciary Committee.

NEW YORK, April 26.—The *Commercial's* special dispatch says there is not much chance for the passage of the Northern Pacific Railroad bill.

Another Mexican proposition was offered in the House of Representatives yesterday in the shape of a joint resolution authorizing the Secretary of the Navy to sell arms vessels and munitions of war to any government on the continent with which we have diplomatic relations and take in pay coin or bonds of such government. Of course this can mean nothing but the Republic of Mexico. The resolution came from Orth of Indiana, and was sent to the committee on Foreign Affairs.

Confirmations.

CHICAGO, April 27.—The Senate yesterday confirmed a large number of appointments, among them Nathaniel P. Langford, Collector of Internal revenue for Montana territory; [illegible], Collector for Nevada; [illegible], collector of Nebraska; Henry Shanklin, of Kansas, agent for the Wachita Indians. The nomination of ex-Gov. Johnson, as collector of internal revenue, having been reported back from the finance committee, Senator Cowan moved that the said committee be discharged from its further action, and that the Senate proceed to act on the nomination. The motion was lost; during the debate on it several Senators said it was determined that the Senate would confirm no man who had been appointed in place of an officer who had been removed on no other than political grounds, which they declared was the case of Collector White, of Pittsburg. This intimation is held out as applicable to all late removals in Pennsylvania, and was intended as a kind of monition to the President.

The nomination of Hon. Samuel Cary, the temperance lecturer, as Collector of Internal revenue for the District of Cincinnati was postponed yesterday and there is no immediate prospect of his being confirmed.

On the appointment of Lewis D. Campbell as Minister to Mexico and Frank Blair as Collector for St. Louis, nothing has been done nor is there anything likely to be done in either case during the present session.

The Senate Judiciary committee [illegible] the present the nomination of Henry Stanbery as Associate Judge of the Supreme Court and they had [illegible] with the bill proposing to reduce the number of Judges of that Court.

Central Pacific Railroad.

CHICAGO, April 27.—The President yesterday transmitted to Congress a communication from the Secretary of the Interior in relation to the Central Pacific Railroad Company, Eastern Division. The Company were required to complete 100 miles of the road within 2 years after their acceptance of the conditions of the original act. This provision expired December 2d, 1865. Only 62 miles had been completed and the commissioners appointed for the purpose have examined and reported upon it and an application has been made as to its acceptance. The failure to complete 100 miles within the period prescribed, rendered it questionable whether the executive officers of the government are authorized to issue the bonds and patents to which the Company would be entitled to if this and other requirements of the acts had been observed. This failure may to some extent be ascribed to the [illegible] condition of the country incident to the late civil war, as the company appear to be engaged in the vigorous prosecution of the work, and [illegible] ability to comply with the conditions of the grant. The President [illegible] that the time for the completion of that part of the road be extended and that authority be given for the issue of bonds and patents on account of this section now offered for acceptance, notwithstanding the failure, should the company in other respects be thereunto entitled.

Reconstruction.

CHICAGO, April 27th.—The Washington *Star* of last evening says that it has transpired that proceedings of the Reconstruction committee have been of a kind to [illegible] alarm the Radicals [illegible] to fight [illegible]. The report has it that Mr. Boutwell, of Massachusetts, broke the ground by opposing the whole scheme of enforced negro suffrage, and urging the adoption of a plan of reconstruction basing the representation on such males at or twenty-one years of age as are not voters and leaving the whole matter of suffrage to the States. Mr. Boutwell alleged that two or three of the New England States were all that could be counted on to sustain negro suffrage if forced.

Mr. Thad Stevens opposed the proposition of Mr. Boutwell with considerable heat, declaring that if the committee commenced to recede they might as well give the whole thing up.

Speeches were made in favor of the bill by the Marquis of Huntington and others, and against it by General Peel and others, when the debate was adjourned. There was no undue excitement either inside or outside of the House and no indication whatever of that [illegible] which some members affected to anticipate. On the 13th the debate was resumed and among the speakers were Sir E. Bulwer Lytton and Mr. Liddell against, and Stewart Mill and Baxter in favor. The debate was again adjourned on the 16th. Mr. Maguire [illegible] that he would at an early day call attention to the serious condition of [illegible] in Ireland from the frequent exercise of powers given by the suspension of the writ of habeas corpus.

European.

PORTLAND, (Me.) April 26.—The steamship *Nova Scotia* has arrived with dates to April 13th, one day later. London 13th.—Consols closed at 86⅝@86¾ for money. 5-20s 69½@69¾ currency. The bullion in the bank of England had decreased £18,000. The *Times* city article says the panic on the stock exchange being more general yesterday, nearly all descriptions of foreign securities closed at a further disastrous fall. Three failures have already occurred on the stock exchange, in connection with the approaching half monthly statement. There was a little more business in the cotton market yesterday, but decline since last Friday has been ½ pence per pound. The last piece of cotton from Paris shows a relapse of [illegible].

The reports from Paris are that the credit mobilier company have been large sellers of the principal securities on account of the prevention of war.

The debate on the reform bill continued in the House of Commons last night. Gladstone moved that the bill be passed to a second reading, and urged its passage.

Earl Grosvenor moved his amendment, and for a postponement of its consideration. Lord Stanley seconded the amendment.

A paper of the evening of April 11th says the political difficulties in Germany continue to exercise adverse influence on American securities owing to sales on Continental account. Five-twenties have been largely taken for shipment to New York. The London *Star* estimates that there will be 20 majority for the reform bill. The *Owl* says Gladstone's budget will contain several small but progressive changes, sweeping away certain minor customs and duties. The *Times* city article says that all the proceedings between Austria and Prussia are from day to day identical with those which have usually preceded every modern war between powerful nations. The Vienna *Evening Post* says the German States have unanimously determined at the next sitting of the Federal Diet to renounce the Prussian proposition for a reform of the Diet, and at the same time a motion will be brought forward requesting the Diet to summon Prussia to discontinue its armaments. Berlin correspondence says Prussia was well founded in the hope that the German Government and people will support the proposition for the Constitution of Germany.

HALIFAX, April 26.—The steamer *Africa* is signalled with advices to the 15th inst.

Later European News.

HALIFAX, April 26.—The news per *Africa*, from London Saturday evening, the 14th, is as follows:

Consols closed at 86½@86⅝, having touched the lowest prices since the Crimean war. Five-twenties 67@67¾. Ex-coupon rentes 60f.

LIVERPOOL, April 13.—The cotton market yesterday and to-day was very dull, with a panic, and the decline of two days amounts to from one to three half pence per pound. Middling uplands are quoted at about fourteen pence. The depression has been caused by the continued large receipts at American ports, the heavy arrivals here and the continued threatening aspect of affairs in Germany. Wheat is firm, but for American white and other descriptions, the market is dull.

Alluding to the panic on the Bourse, the correspondent of the London *Times* says: One of the distinguishing rumors was that the relations between the French and the United States Government were such as to justify the very worst fears, all, of course, on account of Mexico.

The same writer says, Hopes of peace in Germany are rapidly vanishing, and he intimates that the sentence of neutrality by France, few believe to be lasting. A Vienna dispatch says the Prussian reply to the last Austrian note was received on the 12th. It declines in laconic terms to accede to the demand of Austria for the demobilization of the Prussian troops. An official contradiction has been given at Berlin to the assertion that the Prussian government would take action on account of the expulsion of Count Walderie from the Austrian territory. It is reported that the French embassador at Berlin has been instructed to state that France considers the radical reconstruction of the Confederation not as a question of German home policy, but one which would admit of intervention of the dignitaries of the Vienna Congress.

In the House of Commons on the 12th, Mr. Gladstone in an earnest speech moved the second reading of the Reform bill. He replied to the various objections raised by the opponents of the bill. He said the time had come for deeds, not words, and he besought the House not only to be wise but wise in time. Earl Grosvenor moved an amendment, which he had given notice of, in favor of postponing the Reform until the entire scheme contemplated by Government was laid before Parliament. Lord Stanley seconded the amendment. Neither of them questioned the expediency of the Reform, but contended that the extension of the elective franchise should not be separated from the question of the re-distribution of seats.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 27.—Detectives Lees and Ellis, have recovered $600 more of the money stolen from Collector Adams, of Astoria.

It is said that the Railroad Companies are quietly discharging the conductors and drivers who participated in the organization of a society for the reduction of their hours of labor, and supplying their places with others, who are willing to work under their arrangements.

The *Wilder* and *Wade*, two small stern wheel steamers, were launched at Rincon Point yesterday. They were built for the Western Union Telegraph Company, for navigating the inland waters of the Asiatic coast with supplies for the Russian Telegraph expedition.

The ship *Silas Fish*, which arrived from New Castle last night, brings information of the loss of the ship *Thetis*, which was wrecked on Starbuck Island, while on her way to the Walden Islands for a load of guano. The Captain and a portion of the crew had arrived at Tahiti after a passage of 14 days, and the brig *City of Sydney*, had gone for the balance, who remained on the island.

Dr. Charles Powell has sued the *Examiner* for three hundred thousand dollars damages for saying that he and others had been endeavoring to dispossess B. B. Newman from a piece of land front of Lone Mountain, which statement he declares false in every particular, and calculated to do him serious injury.

Dr. Wm. Hower, an old man, was knocked down and his face badly cut, last evening, by Daniel Clarke, a lawyer.

Emily P. R. Atkinson, a native of Canada, apparently about 20 years of age, was committed to the asylum at Stockton, as insane. She was found yesterday behind a door trying to choke herself with a rope.

The steamer *Orizaba*, which left Portland on the evening of April 24th, arrived here to-day. She brings $111,236 in treasure.

Mining Stocks.

The mining stock market continues weak notwithstanding favorable reports from the leading mines represented in the list, and an easy money market in the afternoon yesterday. Ophir, the leading speculative stock fell off $25 but rallied this forenoon to within $7 of the price at the corresponding board yesterday. Bullion fell $10. Chollar Potosi, Belcher, Imperial and Empire mill each $5; while Yellow Jacket improved $20 from the final sales at the morning board yesterday.

Money Market.

The gold and sterling exchange markets in New York are gaining strength. The rise seems to be the result of a temporary scarcity of cash (gold) and a reduced supply of cotton bills with which the market has been overstocked for some time past. The rates yesterday were 127 3-4 and 108¼ for gold and best banker's bills. Legal tenders the brokers quote at 70@70½ buying, and 70¾@70⅞ selling prices.

Flour—more inquiry for export with a dull home trade. Superfine half sacks per bbl $6 25@$5 50, quarter sacks $5 75@$5 75; extra half sacks $5 50@$5 75, extra quarter sacks $5 75@$6 25. Wheat—The market is without essential change with a moderate business. Sales include 1,700 sacks good shipping at $1 65, 1,000 do at $1 67½, 1,400 do for China at $1 70, full figure; 1,200 do prime, to a local miller at something under $1 70 ℔ 100 lbs.

SUDDEN CHANGES OF WEATHER ARE PRODUCTIVE OF THROAT Diseases, Coughs, Colds, etc. There is no more effectual relief in these diseases to be found, than in the timely use of "*Brown's Bronchial Troches*." THE WEEKLY OREGONIAN.

The Weekly Oregonian is published this morning. It contains the latest telegraphic news from the East and Coast—a selection of the best articles appearing in the Daily Oregonian,—full and reliable news from the country, and the most copious commercial information published by any paper in the State.

The average amount of reading matter in the Weekly Oregonian is double that published by any other journal in Oregon; and in the particular of Commercial statistics and the Markets we aim to make it the most reliable, especially in matters pertaining to Oregon interests.

Single copies 12½ cents or $3 00 per year, to any part of the United States, or British Columbia.

Cholera Cess-Pools.—The following from the pen of Dr. Lankester, F. R. S. contains suggestions which should be heeded in Portland. In the year 1854 the cholera [illegible] London. Up to August 31st that year [illegible] 30 cases had occurred in the parish of St. James, Westminster. On that night upwards of a hundred [illegible] in the neighborhood of Broad street, and more than one-half died. The next day the disease [illegible], and for four days it went on. Never was such [illegible] and desolation known in London since the days of the great plague. Upwards of six hundred persons [illegible] in those five days. What could be the cause of this terrible outbreak? At first all was confusion. In the midst of the plague the late Dr. Snow accused the pump in Broad street. It was shut up, and the plague [illegible]. After this event the Vestry appointed a committee to investigate the subject. On that committee were Dr. King, Mr. Marshall, the Rev. Mr. White, myself and others. We investigated the whole at [illegible] house to house. At last the fact became only [illegible], that wherever water had been drunk from the pump in Broad street between the 31st of August and the [illegible] September, there cholera had been the result. The [illegible] afterward examined, and it was found that the [illegible] communicated with a cess-pool in an adjoining house. [illegible] can be more convincing than that brought out by this committee, that the impure water of this pump was the active cause of the outbreak of cholera.

[illegible] Laws.—We are pained to chronicle the [illegible] an organization of a "Vigilance Committee." [illegible] these organizations become necessary [illegible] of corrupt courts, but if such a move [illegible] originate in Portland it would be upon an [illegible] base, viz: the want of more stringent [illegible] at this time the laws answer every purpose [illegible] assaults, but they are very deficient for [illegible] of a brute who batters his wife within [illegible] life, or the "chivalrous" bully who deliberately [illegible] up to an opponent and beats him without [illegible] excuse. Two cases were tried before [illegible] last week that were well calculated to [illegible] of the law as it originally [illegible]. When [illegible] finished his work that clause relating [illegible] and battery was written in such a shape [illegible] penalty not less than $50 or more than [illegible] not less than one month nor [illegible] years. The special session of the legislature [illegible] the law, and it is now a perfect farce. If an [illegible] proper in the first place, and the existing [illegible] repealed and the old provision re-enacted, [illegible] have a vigilance committee organized in [illegible].

[illegible] Not long since Gen. Grant paid a fine [illegible] conviction of riding through the streets [illegible] by law. Later still Judge Nagle of [illegible] was convicted of the same offense. This [illegible] that it was not long ago that the General [illegible] this Department, "came within one" of [illegible] same ordeal—he was riding with the gentleman [illegible] the driving, and the latter paid the fine. [illegible] people, as a general thing," are "fast." The great hurry is fully illustrated in New York, where is concentrated all types of [illegible] of this country. There they are so fast, and [illegible] the pursuit of their financial business, and political [illegible], as to pass over the most vital objects of [illegible] ability, contentment, etc. It is acknowledged [illegible] Francisco has much of this broad scale "fast [illegible] element, in her population, and it is a good [illegible] communities, and just now it seems to be [illegible] extensively in Portland. We like to see it [illegible] be a little guarded—we will live [illegible] by it.

[illegible]—Nitro-glycerine is the dread of all [illegible] are [illegible] and played off [illegible] this dread of the powerful oil. A day or [illegible] in an interior town happened to [illegible] store a neat square package, about [illegible] brick. He had been gone but a [illegible] the package was observed by a clerk [illegible] that the package might be [illegible] charged with nitro-glycerine! [illegible] of every one [illegible]. None dared [illegible] package, and the mysterious move[illegible] who had left it there, was evidence [illegible] infernal. After a short discussion, [illegible] was totally forgotten, the porter [illegible] was given a description of the man [illegible], and was sent out to try to hunt [illegible] after the porter went out the stranger [illegible] anxiously inquiring after a lost [illegible] greatly to his own satisfaction, and [illegible] of the awe-stricken clerks, who asked no [illegible].

[illegible]—The Emmet Guards, Capt. McCormick, are [illegible] preparation for their May Day Picnic, [illegible] to come off on [illegible] day next, on [illegible] located below this city near Springville. [illegible] will leave the wharf foot of [illegible] at 10 a. m., returning from the excursion [illegible] p. m. A fine list of prizes have already [illegible] by friends of the company, to be distributed [illegible] in the target exercises. Mr. [illegible] has prepared ample accommodation for [illegible], by the erection of a pavillion, and [illegible] of serving refreshments. It is [illegible] will be no obstacle to mar the [illegible] of the day.

[illegible]—We learn that a misapprehension of [illegible] of an article in yesterday's Oregonian [illegible] to the river improvement, exists in the [illegible] who were parties to that work as it progressed. [illegible] What we intended to say was that the [illegible] no competent superintendent to aid them [illegible], etc. We believe all, with whom they had [illegible] were able mechanics, but the work was new to [illegible] what was needed as most essential to this [illegible] the enterprise was an experienced Superintendent. [illegible] We make this explanation, having had our attention [illegible] to the matter by Mr. David Pardun, in order [illegible] may not be done [illegible].

[illegible] Operation.—The removal of a cancer is regarded [illegible] one of the most difficult operations in surgery, [illegible] complete, [illegible] of a surgeon in a case of this [illegible] where the complaint is forever removed, reflects [illegible] credit upon the person who does it. A man named [illegible] Vandenburgh from Los Angeles, has been suffering [illegible] from a cancer, and it is said numerous physicians [illegible] of San Francisco have failed to cure him, when he [illegible] his way to Portland, and under the treatment of Dr. [illegible] of this city, last Sunday the cancer was removed [illegible] the aid of a knife, or any surgical instrument. [illegible] was located in the ankle, and the cancer [illegible] taken out.

[illegible] Family Record.—John H. Robbins, Esq., [illegible] our table a copy of the "Photograph Family [illegible] of husband, wife and children, adapted to re[illegible] brief and intelligent manner the name, [illegible] of nativity, etc., etc., of each [illegible] with album leaves for the insertion of photographs [illegible] same. The work will be sold by subscription. [illegible] Robbins is sole agent for the State of Oregon. [illegible] may think that the record will not be profitable [illegible] unless they have a family to match, but [illegible] its value.

[illegible] the Mint.—The Superintendent of the [illegible] has received the new dies recently authorized [illegible]. Hereafter coin of all denominations [illegible] the San Francisco Mint will bear the legend [illegible] we trust," in addition to the other devices [illegible] comparatively unchanged. The new [illegible] by Hon. James Pollock, Director [illegible] Mint.

[illegible]—We learn from the Advocate, that Rev. P. [illegible], of the Presbyterian church of this city, rests [illegible], on account of infirm health which has [illegible] for him, for a time, to desist from pulpit [illegible]. Mr. Caffrey has labored faithfully and acceptably [illegible] city for five or six years, and hopes of his [illegible] health are entertained by his many friends.

[illegible]—An organization has been instituted [illegible] young men of this city, under the above name, for [illegible] purpose of mutual enjoyment and social recreation. A [illegible] party, given under the auspices of the Pickwicks at [illegible] Hall last evening, was a very fine affair, and [illegible] for the character of the organization. We [illegible] may live to enjoy many such pleasant social [illegible].

[illegible] Sermon.—A sermon on temperance delivered [illegible] by Rev. John F. Damon, formerly of this city, in [illegible] church, at Albany, on Sunday the [illegible] is published in the Journal of the 28th by a [illegible] numerously signed. The sermon is a very patriotic [illegible] and just representation of the views of intemperance.

[illegible] Flour.—Our friend D. W. Williams, 110 Front [illegible] has received the agency of the Albany steam flour [illegible] and will keep constantly on hand a quantity of [illegible] of these mills for family use. Having [illegible] flour, we can recommend it as superior article.

[illegible] Delmonico.—The popular restaurant under the [illegible] proprietorship of our friend John B. Frindle, Esq., has [illegible] one of the established houses of this city. As [illegible] will be seen by referring to advertisement in to-day's [illegible] paper, the prices of board have been reduced by the proprietor.

Caught in the Act.—On Thursday evening last a [illegible] was caught in the act of poaching chickens on [illegible] street, near Madison. The transaction was rather [illegible] be blamed, upon being invited to return the game to [illegible] coop, which he graciously consented to do, without [illegible] palaver.

[illegible] Seminary.—Some person has sent us a [illegible] of the "Emanuel Theological Seminary," of New York City, an institution founded for the education of [illegible] youths for the Jewish ministry, on a basis of re[illegible].

Portland Academy.—The third quarter of the Portland [illegible] and Female Seminary closed yesterday. There [illegible] be a vacation of one week. On Monday, the 7th of May, the last quarter will commence.

[illegible] or Two.—A rumor is current in the city [illegible] a tooth, taken from the mouth of the Willamette can [illegible] at Cardwell's Gallery. The same firm are also [illegible] for the chair the man sits in.

[illegible].—The steamship Oregon, Capt. Wm. Metz, [illegible] at San Francisco yesterday.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favoral le opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has our private U. S. Stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in Bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

M. HOWARD'S HAIR RESTORATIVE,

315 Montgomery St., San Francisco.

THE ABOVE PREPARATION, WHICH HAS BEEN recently discovered and patented, is purely a Vegetable Extract.

The undersigned are fully aware of the many unsatisfactory and useless preparations for restoring hair that have been introduced to the public and how little confidence is to be placed in any pretensions to restoring the hair to bald heads, but having tried MR. HOWARD'S PREPARATION we are able to state that it not only prevents the hair from falling out, but absolutely reproduces it, and that we now have good suits of hair growing where we were entirely bald. Therefore, as a matter of justice to Mr. Howard and of consolation to bald heads we tender him this testimonial. Mr. H. keeps the article for sale in bottles with directions for its use, or applies it himself as may be desired.

HOSTETTER'S

CELEBRATED STOMACH BITTERS

READ AND REFLECT.

Make sure of Health. "But how?" you ask;
We answer, 'tis an easy task,
Strengthen the Stomach, and sustain
The Nerves, the sensorium of the brain.
The Liver keep in active play
And *regulate* from day to day
Each organ aid, on nature's plan,
Brace and refresh the INNER MAN,
And like a watch that's kept in chime
By constant care, with railroad time,
The system's tone and strength renew,
And thereby cheer the *spirits,* too.
"How," you inquire, "can this be done?
This Victory o'er Disease be won?"
Hostetter's Bitters," we reply,
Is Health's supreme protection—try!

As a means of regenerating the disordered and enfeebled system, regulating every function of the internal organs, reviving the depressed spirits, invigorating the constitution, and prolonging life, no medicinal preparation, either of the past or the present time, has been so completely and universally successful as

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Against the vapors foul prepare,
That fever-taint the heavy air.
Drink not unmixed the water found
In prairies, woods or marshy ground.
If sedentary toil you ply,
Nature you must assist—or die—
For when debarred from exercise
For artificial aid she cries.
Medicine's grand purpose and intent
Is threatened evil to *prevent*
And if you'd be relieved or spared
From ills that crush the *unprepared,*
Hostetter's Bitters use—for note
They are the surest antidote.

To set at defiance the miasma of unhealthy soils, the poison of unwholesome water, the effluvia of crowded work-rooms and factories, and the baneful influence of sedentary employments, it is only necessary to be forearmed with

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Dyspepsia's pangs, that rack and grind
The body, and depress the mind;
Agues, that as they go and come,
Make life a constant martyrdom;
Colics and dysenteric pains,
'Neath which the strong man's vigor wanes;
Bilious complaints, those tedious ills,
Ne'er conquered yet by drastic pills;
Dread diarrhoea that cannot be
Cured by destructive mercury;
Slow constitutional decay
That brings Death nearer, day by day;
Nervous prostration, mental gloom,
Heralds of madness or the tomb;
For these [illegible] mineral seat.
Means of Relief at least we hail,
Hostetter's Bitters medicine sure,
Not to *prevent,* alone, but *cure.*

In dyspepsia, fever and ague, bilious complaints, constitutional and nervous debility, constipation, weakness, [illegible], and in all complaints of Man or Woman, proceeding from general or inherent weakness of the body, the one great remedy and restorative is

To households lone, in regions new,
And dwellers in great cities, too;
To soldiers in camp, fort and field,
Who need against disease a shield;
To miners, [illegible] and hand,
And tillers of wet, marshy ground;
To feeble wives of fragile mould,
To young and middle aged, and old;

Who droop, yet know not what they ail,

THE WEEKLY OREGONIAN.

The WEEKLY OREGONIAN is published this morning. It contains the latest telegraphic news from the East and California—a selection of the best articles appearing in the DAILY OREGONIAN,—full and reliable news from the State, and the most copious commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon, and in the particular of Commercial statistics and the Markets we aim to make it the most reliable, especially in matters pertaining to Oregon interests. Single copies 12½ cents, or $3 00 per year, to any part of the United States, or British Columbia.

CHOLERA AND CESS-POOLS.—The following from the pen of Dr. Lankester, F. R. S. contain suggestions which should be heeded in Portland. In the year 1854 the cholera ravaged the London. Up to August 31st, that year not more than 20 cases had occurred in the parish of St. James, Westminster. On that night upwards of a hundred cases occurred in the neighborhood of Broad street, and more than one-half died. The next day the disease increased, and for four days it went on. Never was such a scene of desolation known in London since the days of the great plague. Upwards of six hundred persons were killed in those five days. What could be the cause of this terrible outbreak? At first all was confusion. In the midst of the plague the late Dr. Snow accused the pump in Broad street. It was shut up, and the plague ceased. After this event the Vestry appointed a committee to investigate the subject. On that committee were Mr. Bow, Dr. King, Mr. Marshall, the Rev. Mr. White, myself and others. We investigated the whole at great length from house to house. At last the fact became only too evident, that wherever water had been drunk from the pump in Broad street between the 31st of August and the 8th of September there cholera had been the result. The water was afterward examined, and it was found that the pump communicated with a cess-pool in an adjoining house. Nothing can be more convincing than that brought forward by this committee, that the impure water of this pump was the active cause of the outbreak of cholera.

[illegible] LAWS.—We are pained to chronicle the [illegible] an organization of a "Vigilance Committee" [illegible] these organizations become necessary [illegible] of corrupt courts, but if such a move [illegible] legislature in Portland it would be upon an [illegible] basis, viz: the want of more stringent [illegible] at this time the laws answer every purpose [illegible] assaults, but they are very deficient for [illegible] of a brute who batters his wife within [illegible] life, or the "chivalrous" bully who deliberately [illegible] up to an opponent and beats him without [illegible] warning or excuse. Two cases were tried before [illegible] last week that were well calculated to [illegible] of the law as it originally passed. When [illegible] had finished his work that clause relating to [illegible] and battery was written in such a shape [illegible] penalty not less than $50 or more than [illegible] imprisonment not less than one month nor [illegible] year. The special session of the legislature [illegible] laws, and it is now a perfect farce of an [illegible] proper in the first place, and the existing [illegible] repealed and the old provision re-enacted, [illegible] have a vigilance committee organized in [illegible]

[illegible]—Not long since Gen. Grant paid a fine [illegible] conviction of riding through the streets [illegible] by law. Later still Judge Nagle of [illegible] was convicted of the same offense. This [illegible] that it was not long ago that the General [illegible] Department, "came within one" of [illegible] same ordeal—he was riding with the gentleman [illegible] the driving, and the latter paid the fine. [illegible] people, as a general thing," are "fast [illegible]. The great hurry is fully illustrated in New [illegible] where is concentrated all types of [illegible] of this country. There they are so fast, and [illegible] the pursuit of their financial bustle and politics [illegible] to pass over the most vital objects of [illegible] contentment, etc. It is acknowledged [illegible] Francisco has much of this broad scale, "fast [illegible] element, in her population, and it is a good [illegible] communities, and just now it seems to be [illegible] extensively in Portland. We like to see it, [illegible] be a little guarded—we will live [illegible] by it.

[illegible].—Nitro-glycerine is the dread of all [illegible] that jokes and played off [illegible] this dread of the powerful oil. A day or [illegible] from an interior town, having to [illegible] store a neat square package, about [illegible] gold brick. He had been gone but a [illegible] the package was observed by a clerk, [illegible] notes that the package might be [illegible] charged with nitro-glycerine! Horror [illegible] of every one present. None dared [illegible] package, and the mysterious mover [illegible] who had left it there, was evidence [illegible] infernal. After a short discussion, [illegible] was totally forgotten, the porter [illegible] was given a description of the man, [illegible] package, and was sent out to try to hunt [illegible] moment after the porter went out the stranger [illegible], anxiously inquiring after a lost [illegible], greatly to his own satisfaction, and [illegible] of the awe-stricken clerks, who asked no [illegible]

[illegible].—The Emmet Guards, Capt. McCormick, are [illegible] preparation for their May-Day Picnic [illegible], to come off on Tuesday next, on [illegible] below this city near Springville. [illegible] Troupe will leave the wharf foot of [illegible] street, at 10 A. M., returning from the excursion [illegible] P. M. A fine list of prizes have already [illegible] by friends of the company, to be distributed [illegible] best shooters, in the target exercise. Mr. [illegible] has provided ample accommodations for [illegible] ground, by the erection of a pavilion, and [illegible] purpose of serving refreshments. If it [illegible] the weather will oppose no obstacle to mar the [illegible] of the day.

[illegible].—We learn that a misapprehension of [illegible] of an article in yesterday's OREGONIAN [illegible] the river improvement, exists in the [illegible] who were parties to that work as it progressed. What we intended to say was that the [illegible] no competent superintendent to aid them [illegible], etc. We believe all, with whom they had [illegible], were able mechanics, but the work was new to [illegible] what was needed, as most essential to the [illegible] of the enterprise was an experienced Superintendent. [illegible] make this explanation, having had our attention [illegible] to the matter by Mr. David Pardun, in order [illegible] may not be improperly construed.

[illegible] OPERATION.—The removal of a cancer is regarded as one of the most difficult operations in surgery, [illegible] complete [illegible] of a surgeon in a case of this [illegible] where the complaint is forever removed, reflects [illegible] credit upon the person who does it. A man named [illegible] Vanderburgh from Los Angeles, has been suffering [illegible] years from a cancer, and it is said numerous physicians of San Francisco have failed to cure him, when he [illegible] on his way to Portland, and under the treatment of Dr. [illegible] of this city, last Sunday the cancer was removed, [illegible] the aid of a knife, or any surgical instruments. [illegible] was located in the ancle, and the cancer measured [illegible] inches, after taken out.

[illegible] FAMILY RECORD.—John H. Robbins, Esq., [illegible] our table a copy of the "Photograph Family [illegible] of husband, wife and children, adapted to receive [illegible] plain, brief and intelligent manner the name, [illegible] date of nativity, etc., etc., of each, together [illegible], with album leaves for the insertion of photographs of the same. The work will be sold by subscription. [illegible] Robbins is sole agent for the State of Oregon. [illegible] think that the record will not be profitable [illegible] unless they have a family to match, but [illegible] the value.

[illegible] THE MINT.—The Superintendent of the [illegible] has received the new dies recently authorized [illegible]. Hereafter coin of all denominations [illegible] the San Francisco Mint will bear the legend "[illegible] we trust," in addition to the other devices [illegible] comparatively unchanged. The new inscription [illegible] suggested by Hon. James Pollock, Director [illegible] Mint.

[illegible]—We [illegible] from the *Advocate*, that Rev. T. [illegible] of the Presbyterian church of this city, visits [illegible], on account of infirm health which has [illegible] necessary for him, for a time, to desist from public [illegible]. Mr. Caffrey has labored faithfully and acceptably [illegible] this city for five or six years, and hopes of his [illegible] health are entertained by his many friends.

[illegible].—An organization has been instituted by the young men of this city, under the above name, for [illegible] mutual enjoyment and social recreation. A [illegible] party, given under the auspices of the Pickwicks, at [illegible] Hall last evening, was a very fine affair, and [illegible] well for the character of the organization. We [illegible] may live to enjoy many such pleasant social [illegible]

TEMPERANCE SERMON.—A sermon on temperance, delivered by Rev. John P. [illegible], formerly of this city, in [illegible] Congregational church, at Albany on Sunday the [illegible] inst., is published in the *Journal* of the 20th, by a [illegible] numerously signed. The sermon is a very patriotic and just representation of the views of intemperance.

ALBANY FLOUR.—Our friend D. W. Williams 110 Front street, has received the agency of the Albany steam flour mills, and will keep constantly on hand a quantity of the manufacture of these mills for family use. Having [illegible] the flour, we can recommend it as a superior article.

THE DELMONICO.—The popular restaurant under the proprietorship of our friend John B. Prindle, Esq., has become one of the established houses of this city. As will be seen by referring to advertisement in to-day's paper, the prices of board have been reduced by the proprietor.

CAUGHT IN THE ACT.—On Thursday evening last a petty thief was caught in the act of poaching chickens on First street, near Madison. The transaction was rather [illegible], be learned, upon being invited to return the game to the coop, which he graciously consented to do, without further delay.

THEOLOGICAL SEMINARY.—Some person has sent us a copy of the "Emanuel Theological Seminary," of New York City, an institution founded for the education of Hebrew youths for the Jewish ministry, on a basis of reform.

PORTLAND ACADEMY.—The third quarter of the Portland Academy and Female Seminary closed yesterday. There will be a vacation of one week. On Monday, the 7th of May, the last quarter will commence.

[illegible] TWO.—A rumor is current in the city that a tooth, taken from the mouth of the Willamette can be seen at Cardwell's Gallery. The same firm are also [illegible] for the chair the one sets in.

STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

THE LARGEST ASSORTMENT OF SHELF AND HEAVY HARDWARE in the State. For sale by F. J. NORTHRUP & CO.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supersede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars see circulars and testimonials around each bottle.

Beware of Impostors. Examine every bottle. See that it has our private U. S. Stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in Bulk, is an impostor. Any person imitating this bottle, or selling any other material therein whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

M. HOWARD'S HAIR RESTORATIVE,

315 Montgomery St., San Francisco.

THE ABOVE PREPARATION, WHICH HAS BEEN recently discovered and patented, is purely a Vegetable Extract.

The undersigned are fully aware of the many unsatisfactory and useless preparations for restoring hair that have been introduced to the public, and how little confidence is to be placed in any pretensions to restoring the hair to bald heads, but having tried MR. HOWARD'S PREPARATION we are able to state that it not only prevents the hair from falling out, but absolutely reproduces it, and that we now have good suits of hair growing where we were entirely bald. Therefore, as a matter of justice to Mr. Howard, and of consolation to bald heads, we tender him this testimonial. Mr. H. keeps the article for sale in bottles with directions for its use, or applies it himself as may be desired.

HOSTETTER'S

CELEBRATED STOMACH BITTERS

READ AND REFLECT.

Make sure of HEALTH. "But how?" you ask;
We answer, 'tis an easy task,
Strengthen the STOMACH, and sustain
The NERVES, the servants of the brain.
The LIVER keep in active play
And *regulate* from day to day.
Each organ aid, on Nature's plan,
Brace and refresh the INNER MAN,
And like a watch that's kept in chime
By constant care, with railroad time,
The system's tone and strength renew,
And thereby cheer the *spirits*, too.
"How" you inquire, "can this be done?
This Victory o'er Disease be won?"
"HOSTETTER'S BITTERS," we reply,
Is HEALTH'S SUPREME PROTECTION—TRY!

As a means of regenerating the disordered and exhausted system, regulating every function of the internal organs, reviving the depressed spirits, invigorating the constitution and prolonging life, no medicinal preparation, either of the past or the present time, has been so completely and universally successful as

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Against the vapors foul prepare,
That fever-taint the heavy air,
Drink not unmixed the water found
In prairies, woods or marshy ground.
If sedentary toil you ply,
Nature you must assist—or die—
For when debarred from exercise
For *artificial aid* she cries.
Medicine's grand purpose and intent
Is threatened evil *to prevent*:
And if you'd be relieved or spared
From ills that crush the *unprepared*,
Hostetter's Bitters use—for note
They are the SUREST ANTIDOTE.

To set at defiance the miasma of unhealthy soils, the poison of unwholesome water, the effluvia of crowded work-rooms and factories, and the baneful influence of sedentary employments, it is only necessary to be fore-armed with

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Dyspepsia's pangs, that rack and grind
The body, and depress the mind;
Agues, that as they go and come,
Make life a constant martyrdom;
Colics and dysentric pains,
'Neath which the strong man's vigor wanes;
Bilious complaints, those tedious ills,
Ne'er conquered yet by drastic pills;
Dread diarrhœa that cannot be
Cured by destructive mercury;
Slow constitutional decay
That brings Death nearer, day by day;
Nervous prostration, mental gloom—
Heralds of madness or the tomb;
For all [illegible] though mineral nostrums fail—
Means of Relief at least we hail,
HOSTETTER'S BITTERS' medicine sure,
Not to *prevent*, alone, but cure.

In dyspepsia, fever and ague, bilious complaints, constitutional and nervous debility, constipation, sea-sickness, spasms, and in all complaints of Man or Woman, proceeding from casual or inherent weakness of the body, the one great remedy and restorative is

HOSTETTER'S CELEBRATED STOMACH BITTERS.

To wanderers on sea or land,
From Polar shore to Tropic strand;
To households lone, in regions new,
And dwellers in great cities, too;
To soldiers in camp, fort and field,
Who need against disease a shield;
To miners, California-bound,
And tillers of wet, marshy ground;
To feeble wives of fragile mold,
To young and middle aged, and old;
To those in health, who would enjoy
Heaven's best gifts without alloy;
To all the strengthless, weak and pale,
Who droop, yet know not what they ail,
Hostetter's Bitters we proclaim
As Health's most potent element.

If there is any value in public opinion, or any weight in medical testimony, the very best and safest Tonic, Corrective and Alterative now before the world is

A Strange Story about Seward.

A CLUE TO THE PRESIDENT'S ACTION—SEWARD IN AN UNGUARDED MOMENT EXPRESSES HIMSELF.

[Correspondence of the Cincinnati Gazette.]

WASHINGTON March 13.—The very emphatic manner in which Seward affirmed a few evenings since, that he originated the policy of President Johnson has set many men to thinking here, and the fact that coupled with this statement, Seward made use of some very contemptuous expressions in speaking of Johnson, added new complications to the matter. This conversation was related to the President, and although he was loth to believe it, it doubtless excited his suspicions that his Secretary was playing false with him—possibly using him for purposes of his own. At any rate Seward, through his friends, is now attempting to deny the reports made in regard to his conversation, but it can neither be denied, nor its point blank statements explained away. The purpose of proclaiming himself as the originator of this plan, and his haste to deny having spoken contemptuously of the President will appear in a clearer light in connection with some other matters, and especial attention is asked for the facts which are now presented.

SEWARD FOR NEXT PRESIDENT.

The following conversation occurred in Demopolis Alabama, in November last which, in view of late events, assumes a deep significance. The parties to this conversation were one of the prominent politicians of the South who, before the war, was a member of the Cincinnati and Baltimore Democratic Conventions and during the war a Staff officer high in position in the rebel army, and the other was a Union officer well known in the West, who had gone South to purchase a plantation, and was at first mistaken for a Southern man:

The conversation turned upon what course the South would pursue, since the failure of their arms. The first named party stated that the matter had already been earnestly considered by Southern politicians, and they had come to this conclusion that the South must bend all her energies to secure the next President, that they must submit to any abuse or criminations, and only perform such acts as seemed absolutely necessary to satisfy the North. It had been decided that the South could not elect a Southern man and that to make success sure they must have a man that could carry either Pennsylvania or New York, and that they have concluded that of these two States New York is the most available for their purpose and the most easily bought. If, then, they could find a man who could carry New York, even when put forward as a Southern candidate, they were perfectly sure to succeed, and that in case they did succeed in getting back into power they would soon settle their accounts with the North. It was stated further that they had fixed on their man; that negotiations had already been opened with him and looked very promising, and finally it came out that Wm. H. Seward was the man. To the objection that the author of the irrepressible conflict, and a life-long anti-slavery man, could not possibly receive the votes of the South, it was replied that the South would go as a unit for any man who could carry New York and who would give proper pledges beforehand.

Such in brief is the substance of a statement made in November last, and the names of the parties and all the circumstances connected with the matter can be given if needed. The facts have been in the possession of one of our most prominent congressmen since the beginning of the session, but they made little impression until the late remarkable conduct of Seward called them to mind. The person, who heard this conversation was so impressed by the manner of the speaker, by his position, and all the circumstances connected with the occasion, that he besought the Congressman to whom he related it to keep a close watch of Seward's actions, as he was thoroughly convinced that the conversation was a perfect exposure of the plan upon which rebel politicians were then working. Seward has stated privately, within a short time, that he is to be the next President, and he expects the support of the South.

There are four points in Seward's course during the war that it may be well to consider. In the first place, the proof is positive that he gave pledges to the South Carolina Commissioners, Forsyth, Crawford and Roman, through third parties, that Fort Sumter should be evacuated. He then defeated the possibility of relieving the garrison, by sending the only vessel on the whole coast, that could render the expedition successful to another point. While she was being prepared by the express order of Lincoln and the Navy Department, for the expedition against Sumter, and when the fleet at length sailed, expecting to meet the vessel which had put to sea at Fort Sumter, Seward caused a dispatch to be sent to the rebels in Charleston, informing them that a fleet had sailed to relieve Sumter, upon which the rebels opened fire upon the Fort and reduced it. These are grave statements, but they are susceptible of abundant proof.

The second point is this: During the first years of the war the instructions of the Secretary, as contained in his dispatches, were to this effect, that whether the rebellion was crushed or successful, either in part or wholly so, that the status of the slaves would remain unchanged. About the time of the Peace Conference, his dispatches asserted that all that was necessary was for the South to send members to occupy the seats which were open to them in Congress and settle all points of dispute by legislation.

In his Auburn speech, which, it will be remembered, was made a short time before the conversation already referred to at Demopolis, he maintained the doctrine of the continuance of the States in the Union, and that all that was needed to restore matters to their former state was to have the South send members to occupy their vacant seats. If the statement of the politician to whom reference has been made can be relied upon, at this very time negotiations had already been opened with Seward.

The following facts will be recalled concerning Seward's [illegible] with the New York meeting. On the 21st of February he had a prolonged interview with the President and started at once for New York. The next day the President made a speech which a member of his own household declares was prepared beforehand, and that the President said exactly what he had determined to say. Seward went to New York and made a speech. After the meeting he dined with the old leaders of the Democracy in that State. After hearing the exact character of the President's speech he and those who were working with him sent those dispatches which at first so perplexed the country by their style, but which, on second thought, were believed to reflect the character of the dinner rather than any sincere indorsement of the speech.

The declaration of Seward that he originated the present Administration policy, was a good thing to go to the South. The denial of that part, and of the use of any contemptuous language about Johnson, is a good thing to keep peace with the President and make him believe that he is not being used to bring about certain ends, whereby Seward alone is to profit.

Until these late developments no one seemed to [illegible] the object of Seward's visit to Havana. There are those who are now questioning who he might have met in that rebel city of refuge, and what might have been the character of the negotiations entered into there.

[illegible] up to the time of Seward's return the President was known to have no serious objection to the Freedmen's Bureau Bill, it is now questioned whether, as Seward asserts, he is not directly responsible.

It is well known here that Seward still cherishes the most bitter feelings toward the Republican party for not making him President in 1861.

All the matters which are stated positively in the foregoing are capable of proof. Those which are given as surmises will be judged of by each reader, and each will draw such conclusions as he deems warranted by the facts presented.

MRS. SWISSHELM GUILLOTINED.—Andrew Johnson has caused Mrs. Jane G. Swisshelm to be dismissed from a clerkship at Washington for using disrespectful language towards his inebriated Majesty in her newspaper, the *Reconstructionist*. Meanwhile the unimpeachable Mrs Cobb, who professes to draw from pardon brokerage in a week a sum greater than Mrs Swisshelm would derive from her salary in a year still has the *entree* of the White House. Doubtless Mrs Cobb sustains the President's policy.

This is the first time an American Chief Magistrate ever used those offices which belong to the party to punish a woman for adhering to that party. It has been one of the prerogatives of woman to express her thoughts freely. Since she cannot vote, her "widow's mite" of political influence, contributed through pen and tongue, could hardly break down an administration so able (*World*) and popular (*News*) and honest (*Chicago Times*) and patriotic (*Richmond Examiner*) as Mr. Johnson's. Now, that Mr Seward declares that the Union is a fixed fact, a point which no one would have doubted had he not found it necessary to affirm it why not let the good lady express her contempt. If Andrew Johnson turns out everybody who despises his recent course, he will not have enough left to fill the offices.—*Chicago Tribune.*

A Copperhead paper says:

If, voters, you do not wish to labor to feed and educate big, lazy negroes, vote for the Democratic nominees.

To which we reply:

General Fisk, agent of the Freedmen's Bureau in Tennessee, says that the Bureau feeds and clothes more whites than blacks.

FINANCE AND COMMERCE.

WEEKLY REVIEW.

PORTLAND April 27th 1866.

Trade in most branches of business is active, but in a few cases has been rather slack during the week. In the hardware business trade is without appreciable change. Late Eastern advices represent no material decline from the prevailing high rates.

We are gratified to note the marked increase in the industrial establishments of various kinds in our State which is quite steadily bringing us up to a more self sustaining basis when we shall be able to retain very many thousands monthly which is now exported and never returns to benefit the country. Oregon the past three years has sent full $40,000,000 of her treasure out of the State and this sum will be largely increased proportionately notwithstanding the [illegible] our local industries are taking. We have advocated for years the principle that our people should encourage whatever has a tendency to build up the business of the State and in this we trust the rapid growth of our home manufactories may continue to reap a good support. Our manufacturing and agricultural resources and our iron mines [illegible] salt springs and [illegible] interests all require money to develop them but were they fully [illegible] would make us vastly richer as a State than all the more valuable mineral deposits now attracting such a rush of people to our borders as it would be more permanent and lasting.

The increasing commerce of the Pacific coast is another forcible illustration of the true prosperity of the country. The Japanese port of Osaka, one of the most important commercial emporiums of the empire has been thrown open with great solemnity in the presence of the Tycoon and of the diplomatic body, to all the foreign powers in treaty relations with Japan. Osaka contains a hundred thousand inhabitants, and the Tycoon proposes to make the same cession of territory in that city which his Majesty made to the foreign allies at Yokohama.

Osaka will now become the station of British, French, Russian and we trust of an United States consul and the people of this coast will no doubt bestir themselves, so that their interests may fully participate in the advantages that must accrue to commerce from the opening of this new outlet for foreign trade with a nation the intercourse of which with the world at large, has been called into existence by American enterprise.

The *Chicago Tribune* of March 8th, says: "The Northern Pacific Railroad Company has been organized and it is now in the hands of some of the largest capitalists and best known citizens of Boston and other parts of New England. Judge Smith, the President of the Vermont Central Railroad, has accepted the Presidency of the Northern Pacific, and it is now believed that something tangible will now be done to open up this great thoroughfare across the continent. The Company proposes to build from either end till the lines meet, somewhere in the Rocky Mountains. They will avail themselves, during the coming summer, of the great rivers, the Missouri and the Columbia and their navigable tributaries, to put on a line of stages and express teams over the portages between them, thus affording greatly needed mail and other facilities for the mining population of Montana and Idaho.

"As soon as three hundred miles of rail can be laid through the mountains, a line will be built two hundred and eighty miles from St. Cloud, Minnesota, by which railway communication will be opened to Fort Clark. This will save seventeen hundred miles of difficult and uncertain navigation on the lower Missouri. The Oregon Steam Navigation Company will meet the North Pacific Company at the head of navigation on the Columbia. They are building a steamer to run on navigable waters on the line of the proposed railroad, and besides the railways around the Cascades and the Dalles, there will be a land portage of only a hundred and fifty miles between the mountains and the Pacific Ocean.

"At St. Cloud, which, for some time at least, will be the starting point of the travel and express business, and from which the railway will doubtless first be built westward, will, it is hoped, be connected by rail with Chicago during the present year. It is understood that an English company are furnishing the money to build the road between St Paul and Winona, and the Northwestern has agreed to meet them there, at any time, that shall be designated by the other company. With this new stage and express line, and steamers on the Missouri and Columbia, entirely across the continent, our business men may prepare for a great accession to their trade, and the country for such development of mineral resources as will equal if not surpass all the wonders heretofore realized in the progress of the nation."

The country along the line of this road is the only one that admits of prosperous settlements entirely across the continent. That the road will be built at no distant day, there cannot be a particle of a doubt, and that it, and the Central and Southern lines as well, if built honestly for cash, will pay a reasonable percentage on on their cost to the stockholders, is equally clear to all who understand the vast resources of the central portion of the continent, and how large a through traffic they would command from the commerce of the world. When Congress, two years ago, granted the charter to the Northern Pacific railroad, with a munificent grant of land to the Company, as too often happens in such cases, those who procured the charter were unable to proceed with the work, and having but little means if any, and for other reasons could not command the confidence of the public, the enterprise has been allowed to languish, but now we hope the bright expectations of the people may be revived to some purpose.

Money is still in active demand, without difference in the rates of exchange etc. Under instructions from Commissioner Rollins of the Treasury Department, the return of income is to be made in future as prescribed by the act of March 10th, 1866, on a legal tender basis.

A joint stock express company has lately been organized in New York, to be known as the Merchants' Union Express Company, with a capital of $15,000,000, divided into 150,000 shares of $100 each. The stock will be mainly held by merchants, for whose benefit the company is said to have been organized.

Wholesale and Jobbing Prices.

PORTLAND, April 27th, 1866.

Prices are nominally unchanged business is active, in most departments of trade, but there is really nothing important to remark about. Case goods are in demand, and liquors are rather more sought for. Stocks are generally good.

An active trade is reported for the week at Umatilla, from which place freights are to Boise City, 10 cents; to Idaho City, Centreville, 11 cents; to Owyhee, 18 cents; to Auburn, 6 cents, to La Grande, 4 cents.

Domestic Produce Market.

PORTLAND, April 27th 1866.

The demand for Domestic produce still is very light and is chiefly confined to home use which renders the market rather favorable to buyers. We quote in our [illegible] to-day a slight decline in flour. Shipments to the Upper Columbia have been more free for the period under review [illegible] the freight charges but still the market is overstocked.

There is no wheat offering in the market and we learn of no inquiry. There is a large surplus in the country but we doubt any advance in prices hereafter. Dates to February 3d have been received at San Francisco from Australia, at which time California wheat was quoted at 9s 10½@10s and oats 5s 4½d. Total sales of it were in progress, realizing £22 5s.@£22 10s for country and £23 [illegible] for town brands. At Adelaide wheat was quoted 8s 1d@8s [illegible] flour £20@£21.

Bacon supplies are still accumulating [illegible] and no demand for export. Movements in this line are particularly reserved.

Weekly Retail Family Market.

PORTLAND April 27th 1866.

The retail trade appears to be improving. There is very little Oregon butter in the market, and no Oregon cheese is offering, perhaps for the reason that so little is made in the country. Families are supplied by [illegible] contracts. A fair demand exists for fresh fish and early vegetables and the stock is [illegible]. Fresh eggs are still in demand at fifty cents.

Woolen and Cotton Goods.

PORTLAND, April 27th 1866.

We are permitted to make the following extract from a letter to Messrs Aldrich Walker & Co. (San Francisco) written by Manning Howland & Lucas, of Boston under date of March 17th, 1866.

"We notice your remarks with regard to wool. We regard Oregon wool as much better than California, free from burs, and seeds, and it commands higher prices in our markets than that of California. We have seen some of the Oregon wools which were very fine [illegible] newly 50 per cent. [illegible] higher prices are paid than for other qualities. We think the wool growing business in Oregon is as yet in its infancy, and is destined to increase very rapidly in the next ten years and become a very important item in the exports of that State to the Eastern markets, and as you have a house in Portland [McCraken, Merrill & Co.] it will be an easy matter for you to get hold of the best [illegible] wools. We hope you will look into the Oregon wool business, for we are satisfied that if you do you will find the inducements very great.

The wools in [illegible] our market are bringing 35c for the lowest grade up to 45 for the best fine wool and find a ready market at that price, as when scoured and ready for the cards they are much more desirable than wool grown in this section of the United States. We have had some experience in California wools and are *decidedly* of the opinion that it will be much better to forward the Oregon grades."

The directors of the Oregon City Manufacturing Company will to-day elect officers for the ensuing year. Trade is moderate with good supplies on hand and no alterations are advised in prices.

A large cotton factory is to be built at Minneapolis the coming season. General C C Washburn, of La Crosse, is the leading spirit in the enterprise.

Hardtimes, $1 05; Grey Doeskin $1 10. Drab Mixed Beaver, $1 10; Fancy Cassimeres, $1 10@$1 30; Tweeds 80@90c.

COTTON GOODS.—*Sheetings*—Standard, 27@28c; seconds, 20c. light, 19@22. Standard drills 21c. *Shirting*—Bleached unbleached, 31@40c, bleached ⅞ to ¼ 23@26c. *Denims*—26@33c. SOMETHING NEW AND NOVEL.—A PATENT APPLIED FOR.—Mr. Hemke has invented an article by which he can take any number of Head Pictures on the same plate without the subject getting up from the chair, can get different positions of the face and all sizes of heads, can put a half dozen heads on the space of a half dollar; can put a whole family of heads on a common sized card, and will sell pictures cheaper than any other Gallery on this coast. Has the process for taking the new and beautiful style picture called the Porcelain or San Pearl, so much talked of in San Francisco, also has engaged a man from that place who has been making those pictures in San Francisco.

Mr H. is now prepared to do as good work and in as great variety of style as any Gallery in Portland. Orders for full portrait size of photograph will be promptly attended to. ap10d&tf

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies, known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it if only taken in time.

That we may know the proper sized wheel you require measure your water in the following way: Take the width of the stream the average depth, and the distance it flows in a minute.

All the wheels now in use give universal satisfaction. Both the construction of the wheel and its performance, commend it to the better judgment of all minds capable of appreciating the highest development of mechanical construction. Therefore it has conquered the most violent opposition.

This wheel is especially adapted to mining purposes. It is light and can be easily packed into the mountains. THAT OLD GREENBACK

I
am
still
obliged
to accept
of Legal
Tender Notes
at Par (and have
been since Dec 17,
1862, for the rent of
my Handsome Brick
Store corner of Morrison
and Front streets. I feel
compelled to announce for
the benefit of the public, that

JACOB MAYER

Leased the building of me Feb 17,
1862, for a term of years at which
time there was no such currency in
vogue as I it was understood the terms
were Cash. Since the date above stated, he
have received the depreciated currency regularly for the rent of the

CITY OF PARIS STORE

making less than two fifths of the real
sum Mayer was to pay. He had secured the
building at very advantageous rates, and
even were he now to comply with his contract
and pay in Coin would be getting
the best bargain in the city. I make
this statement to show the public
what kind of a man he must be to
take such undue advantage of
the times to convert a few dollars
to himself by LEGAL
SWINDLING. The public
can readily see how
much it costs to have
such tenants in such
costly buildings
as the one referred
to
above.
